

Family Experience JAPAN
Kyoto with Kids

February 1, 2019

Trial event of First Kids Edutainment Program for Tourists Visiting Kyoto

Family Experience Japan (Taoyaka & Co. rep: Miho Akasaka) will launch a kids edutainment program, "Kids Experience" for overseas tourists visiting Kyoto, this March. Kids can learn from experiencing local cultures and communicating with local people. Prior to this launch, we will hold a closed trial event where you can experience "learning" on February 24 (Sunday) for the media and people in the tourism industry.

["Kids Experience" series]

By creating exchanges with children in the local community and children who are coming from all over the world, we feel that everyone can learn wonderful things from each other. Education and childcare experts have launched this service.

Kyoto is famous for beautiful shrines and temples as well as fancy Japanese restaurants, all things adults would enjoy. However, those places aren't always very kid-friendly. With our edutainment series, parents can relax and enjoy their time visiting shrines, temples, etc. while children enjoy learning about Kyoto's local culture and meeting local people in unique facilities around Kyoto, a World Heritage city. (Parents can also be participants)

We provide our traditions as edutainment for kids. Also, we will develop various services which make tourists traveling as a family happy in Kyoto.
